

DCATG A 5 year - Context for 2021

20 JAN 2021 6-8pm

Location: Zoom

Agenda:

6-6:15: Intros/Onboarding into Zoom

6:15-7: Topic: A 5 year/cards

7-8pm: Round Robin Readings: Everyone (or only those who want to participate) pull ONE card (blindly aka share to your screen but don't look) well go around the 'room' and give an QUICK interpretation; Question can be anything you would like but please keep it simple in the interest of time

Topic: A 5 year - what type of energy will it bring?

Note to all before we begin; I challenge you to look beyond the scope of USA politics and what the white house/congress is doing. Think about how does a 5 year impact other areas of focus: People/US/Humans, the collective consciousness, our own soul growth and ego transformation, The Planet as Gaia (Earth) shifts from 3D to 5D (<https://foreverconscious.com/understanding-3-states-consciousness-3d-4d-5d>), Nature/Global Environmental Changes, The Economy (Micro/Macro), Astrology/New Age (Aquarius is a major theme post the December Grand Conjunction - Saturn and Jupiter), Internet Culture; Technology/Media/Communications, Homes and Lifestyle, Careers- Work Life Balance (remote vs office), Relationships, Spirituality/Religion as more people awaken and esoteric studies are as popular as ever.

I respectfully ask that as we look to discuss the energies of the forthcoming year we can stay open minded and not turn this into a CNN debrief which is hard enough given we are living in Washington DC with so much happening in our backyards. Thank You

Numerology:

$$2+0+2+1 = 5$$

Energy of the number 5; The focus of 5 is to attain greater stability. The law of 5 is 'freedom in action'.

- Life for the 5 energy will be filled with freedom, constant change, curiosity, adventure and un-attachment and the 5 energy will live more, see more and experience more life experiences than any other vibration.
- The 5 energy is pragmatic and opportunistic and can be very, very persuasive. (Could be helpful in helping society adhere to wearing masks as we try to come out of this pandemic safely)
- Responsibility (what we left behind in a 4/Emperor Year) is not easy or comfortable for the 5 energy person, as responsibility requires routines and restrictions. The freedom-loving 5 needs to delegate routine activities to others, and be free enough to satisfy their curiosity so that they can have personal freedom in every direction and on every level.
- The 5's personal life may be full of unexpected change and variety and at times they may experience too many changes at once, and this can make them scatter their energies and can lead to a lack of application and discipline, which leaves nothing of lasting value.

Tarot:

Transition from 4 -> 5 Year: Real or False Hope?

Looking at the cards there still the notion of looking at someone to lead Or set the tone for the year. In this case the lead card on the hierophant is the pope vice emperor (4) card. We go from a regimented leader to one who seems to be more open to allowing other voices in the room. Looking ahead 5 may be a chaotic year with the

seeds of faith growing because when we go into the 6 year (2022) - LOVERS; CHOICES!

The Hierophant:

Moving from a 4 Emperor (do as I say) to a 5 (Hierophant) society is still under the guise of a 'ruling leader' vibe but in this case the religious undertones seems to indicate one is also putting faith in this person to lead with more a collaborate approach given the two figures depicted in the bottom of the card. There's a conflict with the unstable 5 year energy the Hierophant is TRADITION, Conforming to following rules, more group think. Second year of the global pandemic - more knowledge around this topic being disseminated. The keys symbolize this person MAY have the answers that people seek, the answers to prayers. There's still an ego driven concern with the people kneeling - low key power and control (not as in your face as the Emperor) but a no-

tion of bending to their will of rulership is still present. Hierophant astrologically represented by Taurus - fixed earth but can be very stubborn due to being rooted to traditional inflexible or dogma towards new ideas and growth.

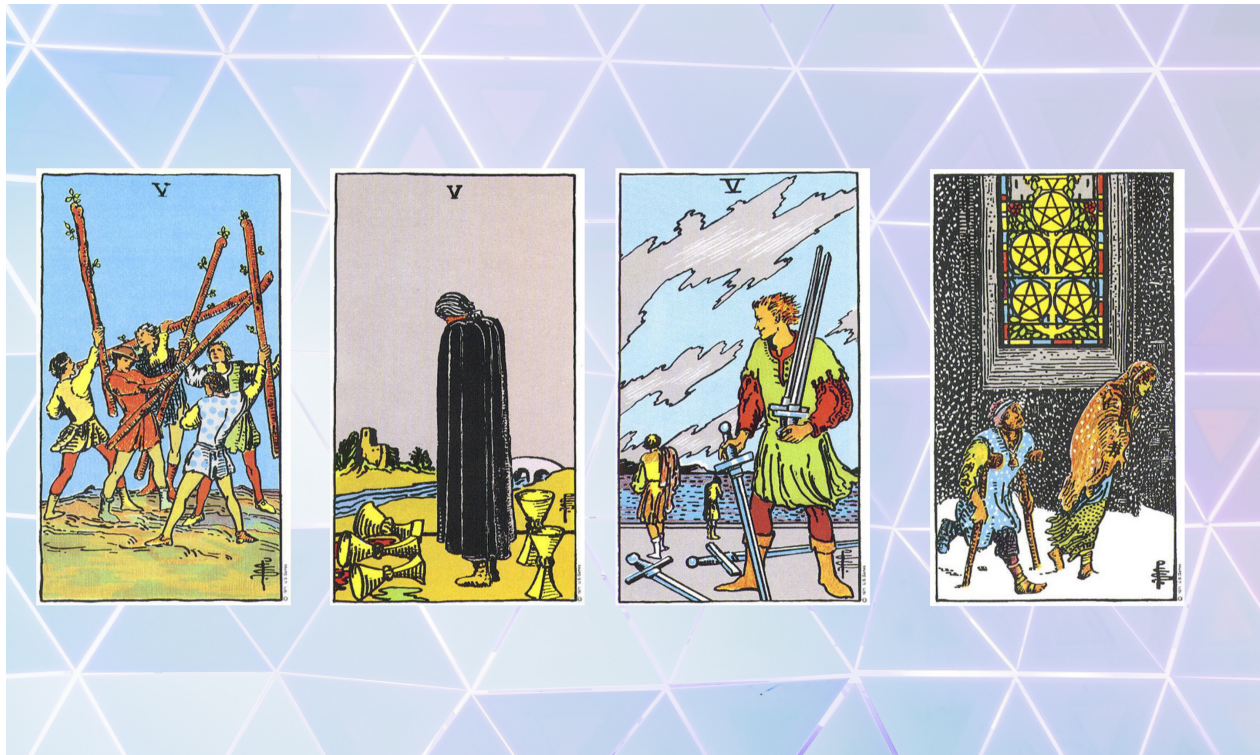

Examining this card through the lens of the traditional Rider Waite can trigger "a huh hey what's going on here - moment" practicing an esoteric science and you're greeted by a staunch religious figure similar to the Pope.

Check out this interesting perspective on the hierophant if you like me and not familiar with Catholicism this author presents an avant garde view of the Pope card:

<https://www.twosidestarot.com/2015/05/05/redeeming-the-hierophant/>

"What about those times when we feel cut off from the universe? | Result of Covid Lockdowns— To whom can we turn? when that spirit part of ourselves feels remote, unreachable? Alone? The Magician might tell us to start a new creative project. The High Priestess to go into meditation. The Empress to bring it in for a hug. The Emperor to get back to work. But The Hierophant? They pick up the phone on our behalf and put us back in touch."

Minor arcana:

5 of Wands- Conflict or a Game?

- Energy not contained or out of flow
- Games or Life without clear rules (defined or being followed)
- Problems with group actions/competitions
- Out of flow - can't get coordinated

5 of cups- Emotional reaction to loss

- Glass half empty or full mindset
- Cups knocked over loss of groups (3 of cups - what's to celebrate in 2021)
- 2 remaining cups (quarantine pods)/ Knowing all isn't lost during this spillage

- Emotional recovery and strength is necessary to finish the journey (crossing the bridge & river over to the city)

5 of Swords- Victory or Victim?

- Push/Pull of Sore losers & winners with out glory
- Like 5 of wands subtle indications of a game being play out and we see the results
- After the rest of the 4 of swords jumping out there too quick =Retreat or defeat
- Power plays; winning at all costs (and not caring)
- Don't loose your morals (think Hierophant)
- When stressed call back your power - take the victory of surviving 2021

5 of Pentacles - Money/Health/Spiritual Losses;

- Coming from the stagnant miserly the 4 of P - the 5 is still holding fear in the body and material world
- These losses can be mitigated by turning to the energy of the Hierophant; (your belief system) and detaching from the story your telling yourself
- RW deck there is no door depicted (help is closed off); meaning you need to find your own way into seeing opportunities to get off the ragged path and come into healing and prosperity; remembering through loss is restoration

To summarize the 5 cards aren't easy energies to handle but 5 is for growing and stretching beyond what the 'stability' of the 4 provided. The lesson is to rely on what the Hierophant teaches you and to push through and knowing its not a personal strife

- we are in this together; keep your belief systems and values at the forefront of your life.
